Change log

Release notes "CITO firmware"

Month	Change	Document version
08/2023	Initial release notes of firmware version 5.22	1.0

August 2023 (version 5.22)

Changes since June 2023 (5.19.5)

Highlights

- Added support for CITO 500 with payment terminal
- Fixed an issue with temperature management in CITO 240
- Fixed an issue where charging sessions were stopped after presenting a third card
- Fixed an issue with cables not unlocking without backend connection

Note

- CITO 240 and CITO 500 can now be updated with the same file
- Highlights include changes from versions 5.20 and 5.21, which were not released
- For release notes of versions 5.19 and older see "CITO firmware 5.19 Release notes.pdf"
