

Connectivity Payment Terminal

- Compleo offers its Payment Terminal for the DUO ims and CITO 500 product families in the German market.
- The payment terminal has been developed with an open backend.
- Compleo's payment solution has requirements in regard to backend compatibility. We will be happy to provide information about these requirements on request.
- Compleo establishes contact with approved payment service providers for the payment solution.
- For their part, charge point operators conclude payment contracts with their own payment service provider.

September 2023
