

Data sheet

Anti-theft protection DC cable

The anti-theft protection for our DC charging cables effectively prevents vandalism and copper theft, taking the eTower 200 to the next level in public charging.

The combination of hardened flat steel and wear-resistant steel-ceramic materials makes it extremely difficult for potential thieves to cut through the cables.

Due to the moderate additional weight, the charging cable remains flexible to use.

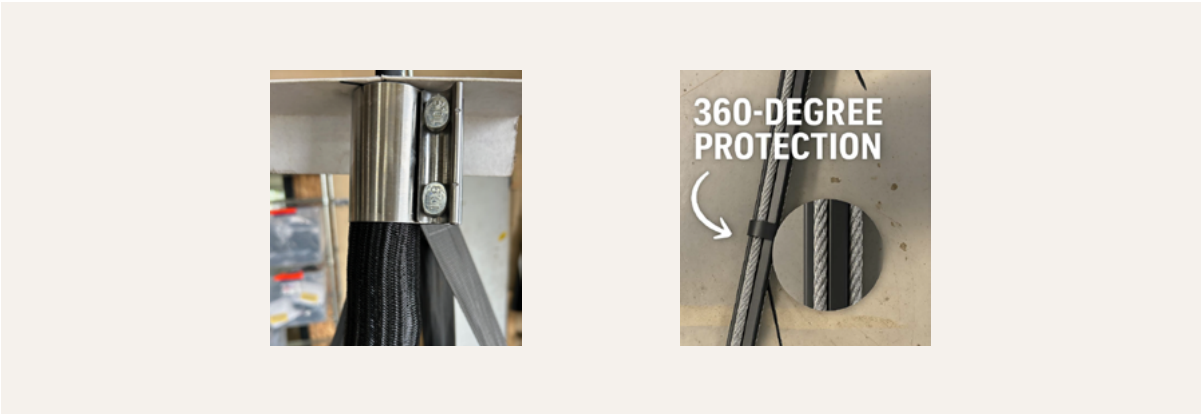

Technical

Product	Anti-theft DC charging cable
Kompatibel zu	eTower 200, with 6 m cable length
Scope of delivery	Cable protection system including protective cover and mounting material, collet chuck for stainless steel cable ties is not included in the scope of delivery, but is recommended for installation

Mechanical data

Length	6 m
Weight	3,64 kg
Temperature range	-40°C to 125°C
Material	Steel, steel-ceramic material
Protective cover	Plastic fabric, UV resistant
