

Compleo eMARKETPLACE EMP Data sheet

With eMARKETPLACE EMP, e-mobility providers (EMPs) give their contract customers access to one of the largest charging networks in Germany. This is ideal for companies intending to offer e-mobility rates to their customers and staff – regardless of whether they operate their own charging points. Create your own e-mobility rates and give your customers access to an ever-growing charging network.

Highlights

- ✓ Define individual contract models: Profit from every charge made by your end users through absolute or relative price premiums
- ✓ Access to one of the largest charging networks in Germany: Through your e-mobility contracts, your customers have an ideal connection to several roaming platforms
- ✓ Contract management: Create access IDs (EMAIDs) and assign rates as well as RFID charging cards
- ✓ Invoicing: Compleo invoices you for all charging processes carried out – you take care of final invoicing with your customers yourself
- ✓ Full flexibility: Decide for yourself whether your customers can charge in the entire charging network or only at select charging points
- ✓ Free app: Grant your customers convenient access to your select charging points via the eCHARGE+ app

Certificate

Compleo eMARKETPLACE EMP

Data sheet

Compleo backend: Basis for Compleo eMARKETPLACE EMP

Maximum scalability: Microservice architecture enables rapid integration of a large number of charging points and rates

Software as a service: Cloud-based services enable low investment risk, transparent costs, and accelerated implementation

Maximised operational security: Compleo cloud services and server centres are certified for operational security in accordance with ISO 27001

Service guarantee: 24/7 incident management

Features

Define individual contract models: Profit from every charge made by your end users through absolute or relative price premiums

All in one contract: Compleo takes care of connecting the CPOs and thus expanding the charging network that you offer your customers – you only have to conclude one contract

Invoicing: Compleo invoices you for all charging processes carried out – you take care of final invoicing with your customers yourself

Roaming: eMARKETPLACE EMP gives your customers access to a nationwide charging network and includes internal and external CPO roaming networks (e.g. Hubject)

Full flexibility: Decide for yourself whether your customers can charge in the entire charging network or only at select charging points

Costs and use

Use is free of charge and does not require a subscription to eOPERATE professional

Basic version: Access to the eOPERATE portal

Additional features: eSOLUTION EMP, eCONNECT and eCHARGE+ app
